**Accreditation
and Designation
Chairperson**

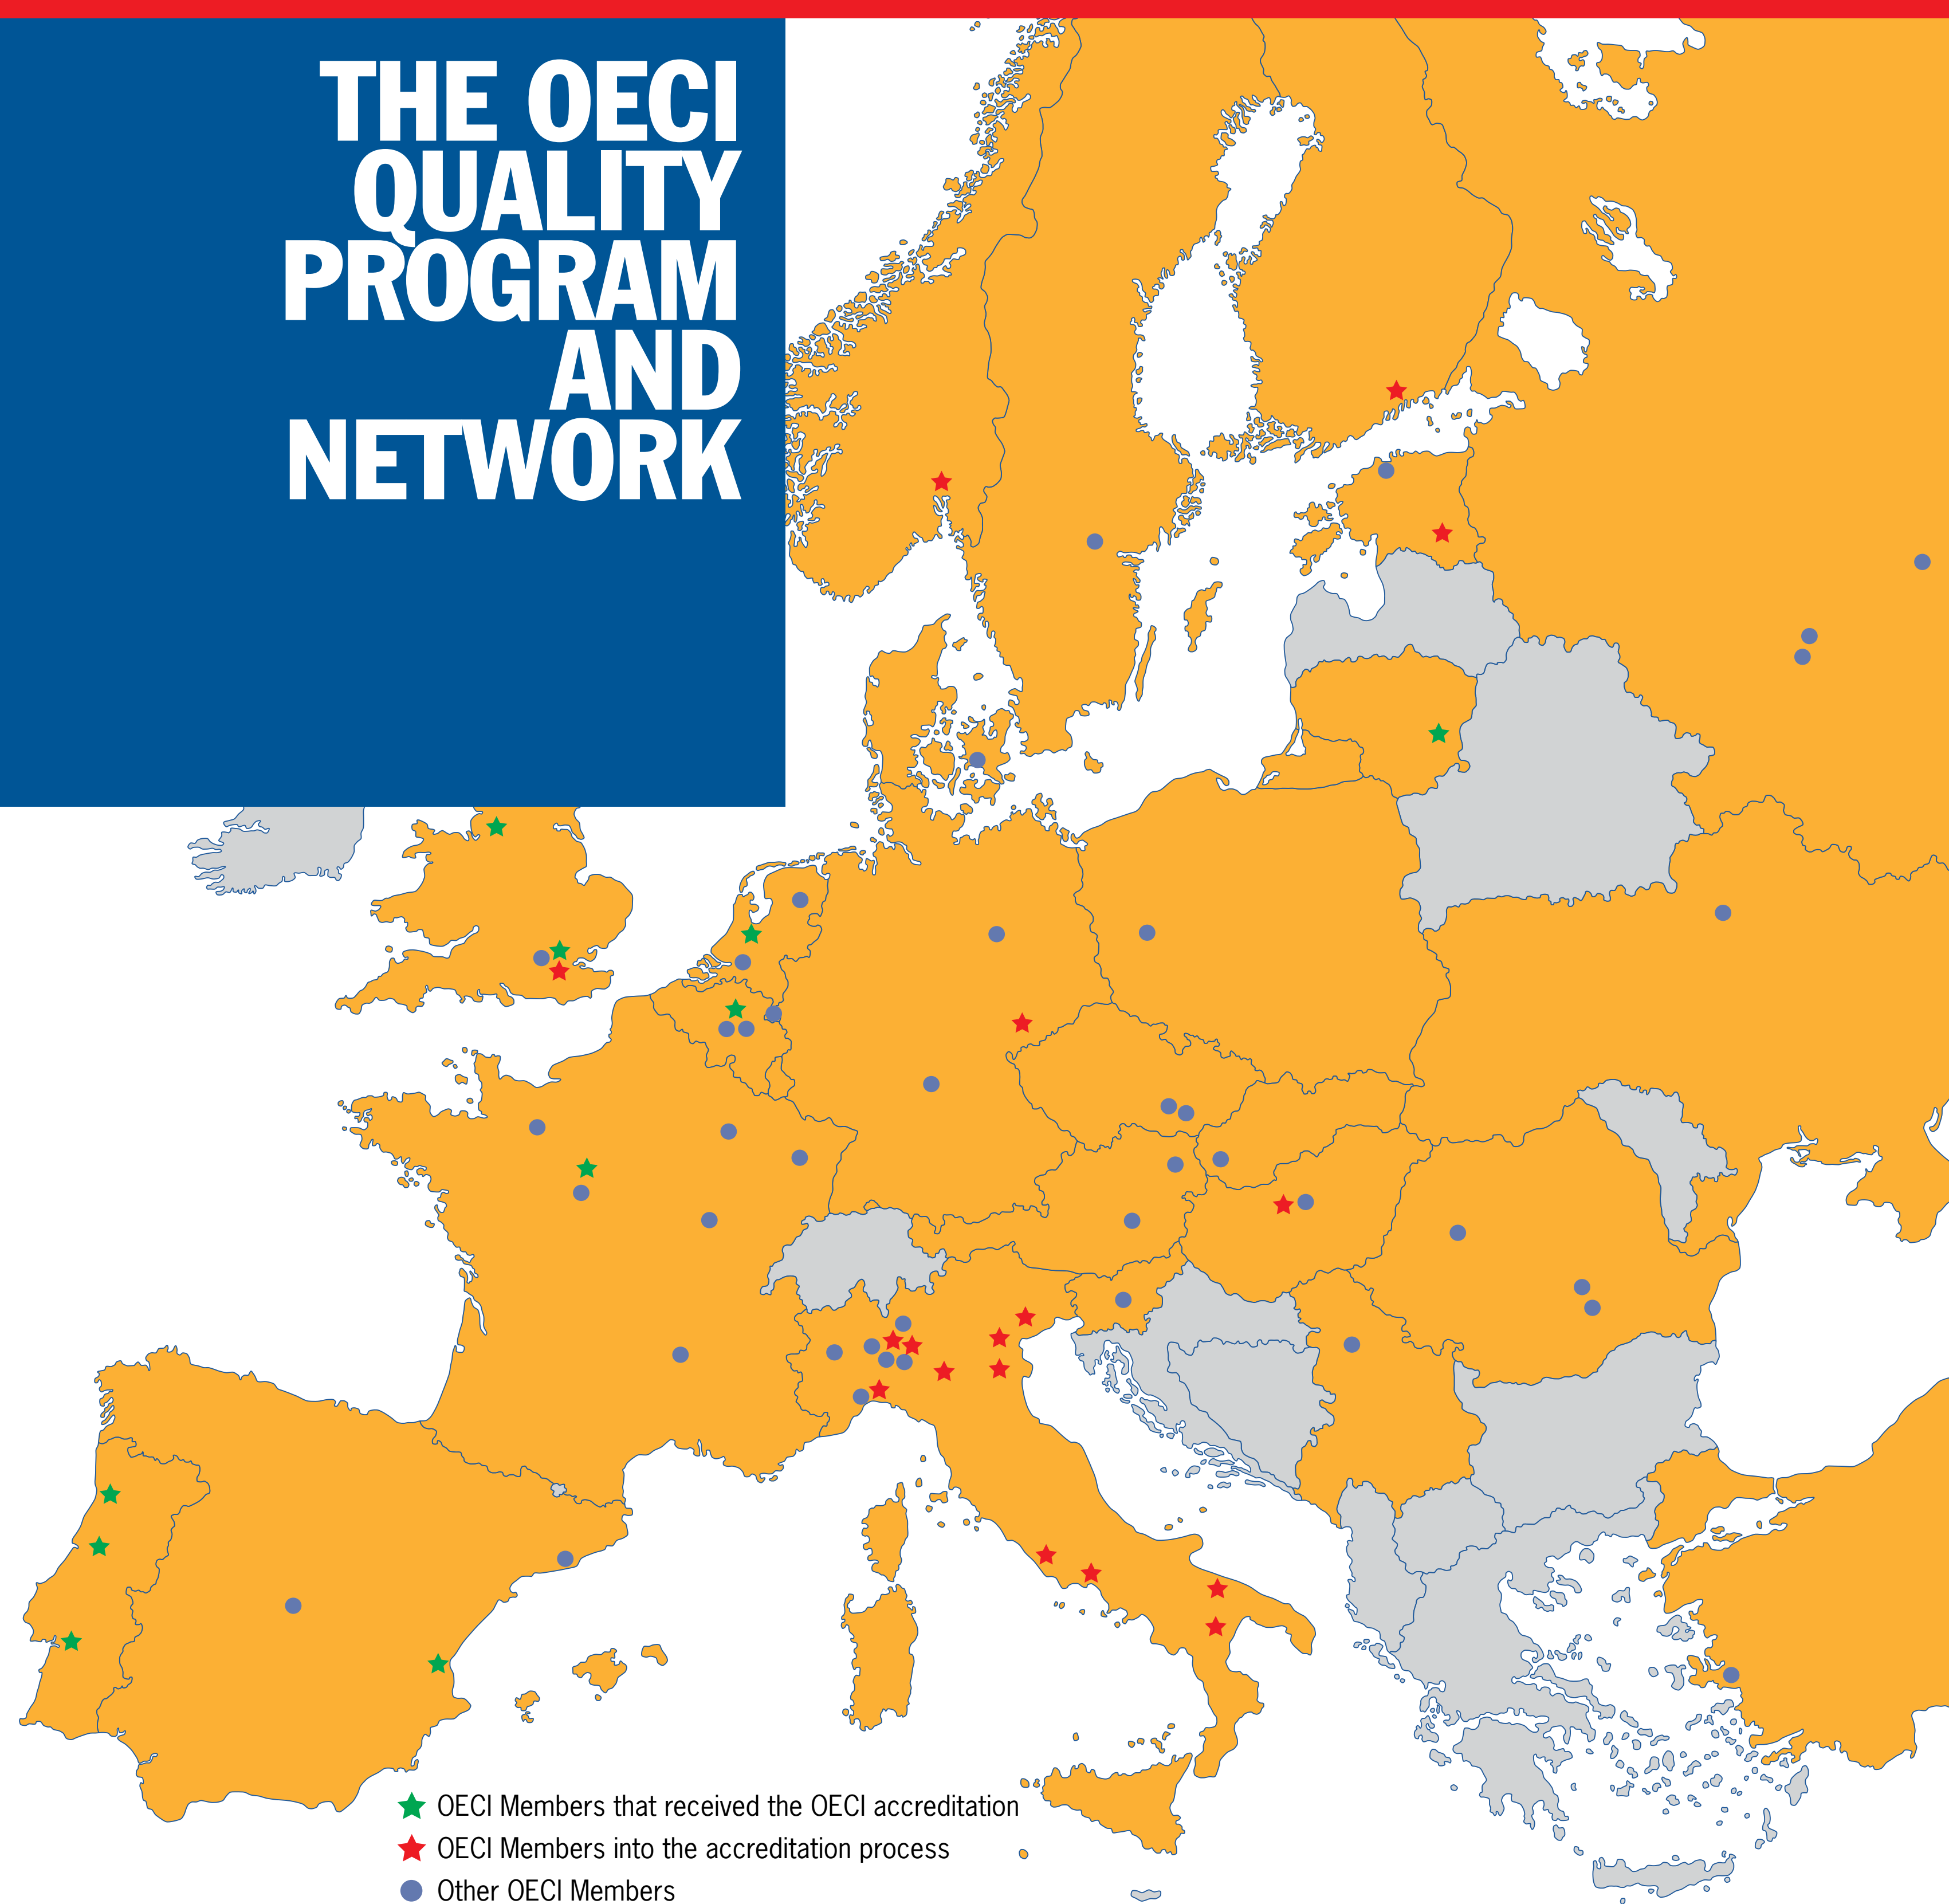

Accreditation is a process in which an independent organisation evaluates a health care provider and certifies that the provider meets validated quality standards. An accrediting organisation's survey includes an evaluation of the provider's clinical organisation structure, as well as other aspects of the provider's operations such as administration, personnel and information management.

Starting from June 2012, the OECE Accreditation and Designation system is also open to non-OECE members.
