

OEI YOUNG NETWORK

Excellence Mobility Programme

Learn from Europe's best cancer institutes - and bring it home.

*Izabela Agnieszczak, MD,
Maria Skłodowska Curie National Research Institute of Oncology,
Poland & University Paris Saclay, France*

Organisation of European Cancer Institutes - EEIG

What is the programme?

An OEI Young Network initiative that lets young professionals (under 40 years old) spend time at another OEI member institute - to learn new knowledge, skills and best practices, then transfer them back home. It supports OEI's mission of equal, excellent cancer care across Europe.

Clinical rotations

For young clinicians — doctors, nurses and allied health professionals.

Organisational & management visits

For young administrative and management specialists.

Research placements

For young researchers and research support staff (e.g. lab technicians).

€2,000

funding per mobility

1 week +

flexible duration

10

grants in the 2027 pilot

Who can apply?

You are eligible if you meet all four conditions:

1

Affiliated with an OECD member institute

Your home institution is part of the OECD network.

2

A young professional, under 40

Open to clinicians, managers, researchers and support staff.

3

Endorsement from your home institution

Your institution backs your participation

4

Approval from the host institution

A statement of acceptance from where you want to go

What's covered

Up to **€2,000** per mobility. Eligible costs:

Accommodation

Travel

Flights, train tickets and local public transport.

Oncology Days

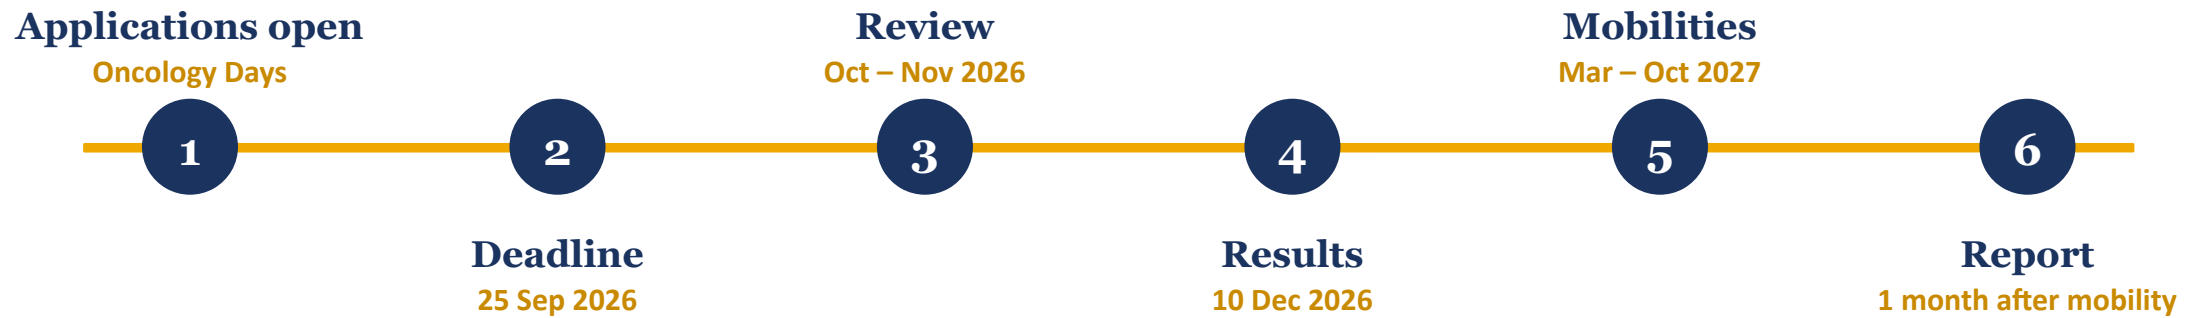

Participation in OEI Oncology Days 2027 or 2028.

Good to know

The bursary is a contribution, not full funding. Only these three type of costs can be covered. Funds are paid to your home institution within one month of your mobility report — so your institute pre-finances the exchange.

Key dates

Mark your calendar: all documents must reach Youngboard@oeci.eu by 25 September 2026.

How applications are scored

Eligible proposals are scored out of **70 points** by an expert panel. The top 10 are funded.

Project max 50 pts

- 10** Rationale & quality of the proposed exchange
- 10** Feasibility - realistic plan, timeline and budget
- 10** Knowledge transfer & capacity building
- 10** Collaboration & networking potential
- 10** Future outputs (publications, joint projects, grants)

Applicant max 20 pts

10 Track record

Quality of previous work, relative to career stage.

10 Career development

How far the mobility advances your career and your professional network.

Ready to apply?

This is your chance to learn, connect and grow — and to bring excellence back to your team.

Deadline

25 September 2026
