**Empower junior professionals in the oncological field**

**with the scientific knowledge, technical expertise and soft skills necessary to advance cancer research and patient care.**

The Academy is part of the *OECI Presidential Program 2023-2026* and wants to produce well-rounded scientists who can perform top-level innovative science, secure funding for their research, effectively communicate their findings to a diverse audiences, and lead their teams with confidence and integrity.

*The final goal is to contribute to the global fight against cancer  
by training the future scientists and leaders in the oncological field.*

- Grantsmanship is considered the “art” of writing research grant proposals, encompassing technical principles of:
  - **science methodology**
  - **scientific writing and communication techniques**
  - **marketing techniques**
- Grantsmanship can make the difference in the successful funding of a good research project
