

Organisation of European Cancer Institutes:

promoting innovation for quality in cancer care

General Assembly
Helsinki 14.06.2024

Mission statement

The OEI mission is to bring together the cancer research and care institute of the EU in order to create a critical mass of expertise and competence with the view of building and maintaining a consensus on the best models of oncology, developing concrete affordable and realistic solutions to effectively combat cancer, and fostering the widest deployment of oncology models and solutions to improve the quality of life for the patients in the EU.

Excellence in Care and Research

Developing and promoting a unified model
of comprehensive cancer centers
that combine patient care, research, and education,
ensuring that every cancer patient
has access to the best possible treatments and support.
